

RESUME

EDUCATION

- **American International University, Bangladesh**
2018 - 2022
B.Sc. in Computer Science & Engineering
 - CGPA : 3.60 out of 4.00 (December 2022)
- **Mastermind International School, Chittagong**
2013 - 2017
 - O-Level • A-Level

PROJECTS

● **TravelWhims - An Online Travel Desination Platform** ASP.Net , MVC Framework, Bootstrap

This is an online travel destination marketplace. Various travel agencies can post their travel event packages, and tour seekers can avail them. My part was to develop the site from the agency side, where they can login and list their upcoming events with details

● **MATS - Online Education Platform**

PHP Laravel, Blade Framework, Bootstrap, Javascript

This web portal is a similar learning and teaching platform like Udemy, Coursera, for students to access to various courses provided by instructors. My part was to develop the site from instructor side. Instructors can sign-in and form their courses.

● **Automated Polyps Segmentation using Neural Network** Python, Tensorflow, Keras, OpenCV

This is a work from my thesis on Machine Learning. Here, I have designed a neural network based on modified U-Net, that can automatically detect and segment polyp tissue from biomedical endoscopy images. This model has scored the highest on our benchmark challenge. We are looking for publication on January 2023.

● **Squid Game**

C++ , OpenGL

This is one of my computer graphics project. A game developed based on the Korean TV show of same name. Featuring the famous 'Red-Light Green-Light' game. This project was well appreciated by my faculty and owning me a final 100 score on the course.

WORK EXPERIENCE

● **Technical & Managerial Support in a Medical Center**

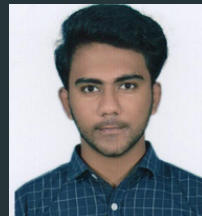

2016 - 2018 , 2020 - 2021

I have been the only tech support at our family owned medical center. My job was to review, troubleshoot, and advice anything related to computers. I was also indulged in handling other managerial paper works.

● **O-Level & A-Level tutor on Mathematics and Physics**

2017 - 2019

SKILLS

PHP Laravel	C++
ASP.NET	C#
HTML & CSS	Python
Bootstrap	Data Structure
SQL	Machine Learning
JavaScript	Image-processing
React	Microsoft Office
RestAPI	Adobe

EXPERTISE

Elevated learning ability
Handling stress
Impressive creativity
Good communication
Problem Solving
Researching skill
Great leadership skill
